Clinical Neuropsychology Study Guide and Board Review (American Academy of Clinical Neuropsychology) From Oxford University Press

The Clinical Neuropsychology Study Guide and Board Review provides an easy to study volume with sample questions and recommended readings that are specifically designed to help individuals prepare for the ABCN written examination. In addition, this book can also be used as a teaching tool for graduate students and trainees at various levels. The book is divided into three sections: Section 1: Foundations of Clinical Neuropsychology; Section II: Fundamentals of Assessment; and Section III: Disorders and Conditions. The format is geared toward exam preparation and is much less dense than a typical textbook. Materials are provided in a concise, outlined manner, with liberal use of bullets, boxes, and illustrations/tables that allow readers to easily review and integrate information into their already established knowledge base. To augment the study guide, a recommended readings list at the end of each chapter provides references to more comprehensive materials considered important or seminal in each topic area.

Editorial Review

Review

"The recently published book, *Neuropsychology Study Guide and Board Review*, by Drs. Stucky, Kirkwood, and Donders is a wonderful resource. I wish this was available when I was studying for my ABCN boards, but will enjoy it in any case as an efficient way to review topics from the three sections of the book: Foundations of Clinical Neuropsychology, Fundamentals of Assessment, and Disorders and Conditions. The editors and the chapter authors have made an excellent contribution that will be of value to students, new clinicians who are studying for their board exam, and even seasoned practitioners." -*American Academy of Clinical Neuropsychology Community*

About the Author

Dr. Kirk Stucky obtained his Psy.D. from Florida Tech in 1995. He completed his internship at Union Memorial Hospital in Baltimore, MD and his residency at the Consortium for Advanced Psychology Training (CAPT) in Flint, MI. He is currently the Chairman of the Department of Psychology at Hurley Medical Center and an Assistant Professor for the Michigan State University College of Human Medicine, Department of Medicine. He is board certified in Rehabilitation Psychology and Clinical Neuropsychology and currently serves as the vice chair for the Council of Rehabilitation Psychology Postdoctoral Training Programs. He is also the Program Director of a Postdoctoral Fellowship Program in Medical Psychology at Hurley Medical Center. This program is accredited by the American Psychological Association in Clinical Health Psychology as well. He has had the privilege of supervising postdoctoral residents for 18 years and mentoring several psychologists who have completed or are preparing for board certification in clinical neuropsychology and rehabilitation psychology. During that time he has developed, modified, and improved various study materials, which are included in this study guide.

Dr. Michael Kirkwood is Co-Director of the Concussion Program at Children's Hospital Colorado and Associate Clinical Professor in the Department of Physical Medicine and Rehabilitation at the University of Colorado School of Medicine. He is a pediatric neuropsychologist board certified in Clinical Neuropsychology by the American Board of Professional Psychology. He was a founding member of the BRAIN board certification support group and ongoing member of the group's leadership. He has authored or co-authored dozens of peer-reviewed publications and book chapters, as well as several books, including the Oxford published volume, *Board Certification in Clinical Neuropsychology: A Guide to Becoming ABPP/ABCN Certified without Sacrificing your Sanity*.

Dr. Jacobus Donders is the Chief Psychologist at Mary Free Bed Rehabilitation Hospital in Grand Rapids, MI. He is board-certified by the American Board of Professional Psychology in both Clinical Neuropsychology and Rehabilitation Psychology. In addition to being an active clinical practitioner, he has served on multiple editorial and executive boards, has authored or co-authored more than 100 publications in peer-reviewed journals, and has co-edited four books. He is a Fellow of the National Academy of Neuropsychology and of Divisions 40 (Clinical Neuropsychology) and 22 (Rehabilitation Psychology) of the American Psychological Association. His main interests include validity of neuropsychological tests and

prediction of outcome after brain injury.

Users Review
