Editorial Review

From the Back Cover

Find Out How *Any* Investor Can Use Options to Lock in Fast Trading Profits and Decrease Portfolio Risk

Options are today's most complex, versatile investment tool. Ignored by investors who see them as an aggressive, no-limits trading gambit which they definitely can beat, options can, in addition, provide conservative investors with risk-hedging qualities available nowhere else. One thing is certain: all investors who trade options, regardless of their goals and strategies, quickly learn that the leverage provided by options opens the door to a world of innovative, profitable trading possibilities.

Fundamentals of the Options Market is a step-by-step guidebook for gaining increased trading profits while protecting against market downturns by using listed stock options, index options, and LEAPS. Plain-English analyses and explanations combine with quizzes, checklists, charts, graphs, and more to reveal:

- How to open an options account, map out your strategy, and place your first trade
- Trading tools from synthetics to Greeks for protecting positions and exploiting any market
- **Tips of the Trade** How to remain focused, keep control of risks, and manage your options position

From hands-on basics to advanced technical skills, *Fundamentals of the Stock Market* will provide everything you need to profit from options in today's volatile markets. Let this hands-on book along with its companion *Fundamentals of Investing* help you build the skills and confidence for options trading success ... **before** you risk money in the no-room-for-error waters of real-time trading!

Hone Your Trading Skills with McGraw-Hill's *Fundamentals of Investing* series!

- *Fundamentals of the Stock Market* by O'Neill Wyss
- *Fundamentals of the Futures Market* by Donna Kline
- *Fundamentals of the Bond Market* by Esmé Faerber

About the Author

Michael S. Williams is president and CEO of Market Compass, LLC, which specializes in financial education for investors and traders online, via the Internet, and through the PCX Institute. Williams has been an options market maker on the Pacific Exchange (PCX) for nearly a decade. He is a frequent speaker at conferences around the country including the TSAA annual conference, the Options Industry Council seminars, and *The Money Show*.

Amy S. Hoffman is a founder and vice-president of Market Compass, LLC. She has been an options market maker on the Pacific Exchange (PCX) trading for hedge funds and as an independent market maker. Hoffman's financial career began in 1989 as a compliance officer and in-house trader for a large commodities firm. She is currently an instructor for the PCX Institute and Options Industry Council.

Users Review

From reader reviews:

Federico Crouch:

Within other case, little men and women like to read book Fundamentals of Options Market. You can choose the best book if you appreciate reading a book. Provided that we know about how is important the book Fundamentals of Options Market. You can add information and of course you can around the world with a book. Absolutely right, simply because from book you can recognize everything! From your country right up until foreign or abroad you may be known. About simple factor until wonderful thing you can know that. In this era, we are able to open a book or searching by internet unit. It is called e-book. You need to use it when you feel bored stiff to go to the library. Let's study.

Cheryl Estrella:

The book Fundamentals of Options Market can give more knowledge and also the precise product information about everything you want. So just why must we leave a very important thing like a book Fundamentals of Options Market? Several of you have a different opinion about reserve. But one aim this book can give many info for us. It is absolutely right. Right now, try to closer with the book. Knowledge or data that you take for that, you may give for each other; you can share all of these. Book Fundamentals of Options Market has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by wide open and read a e-book. So it is very wonderful.

Christina Bishop:

Nowadays reading books become more than want or need but also get a life style. This reading routine give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The information you get based on what kind of guide you read, if you want have more knowledge just go with knowledge books but if you want sense happy read one having theme for entertaining like comic or novel. The actual Fundamentals of Options Market is kind of reserve which is giving the reader unstable experience.

Harrison Bowman:

Is it you who having spare time subsequently spend it whole day simply by watching television programs or just laying on the bed? Do you need something new? This Fundamentals of Options Market can be the answer, oh how comes? The new book you know. You are consequently out of date, spending your time by reading in this brand-new era is common not a nerd activity. So what these books have than the others?
