Hocus Pocus: Titania's Book of Spells By Titania Hardie

The first of Titania's magic books that made the must-have shopping pages of Vogue and sold all around the world, in a dozen languages, HOCUS POCUS is a simple introduction to the power of ritual thinking and mind focus - white magic - which can change your life. Spells are the physical and aural manifestation of honed thought. There is a beauty and magic about the simple steps of combining colours and scents, precious objects and photographs and clear words, which can make a difference to the life you lead. Our thoughts are diamond-strong, and if we use them to our advantage rather than carping against ourselves, our lives are brighter and more successful. HOCUS POCUS, beautifully photographed by Sara Morris, will open the doors and windows to a new expression of life.

Editorial Review

Amazon.com Review

Every witch has a book of spells. What sets *Hocus Pocus* apart is how Titania Hardie has bundled her useful and effective spells with evocative photographs that make this book a work of art. Gentlemen should be warned that the spells are designed for women, though many can be adapted for use by the determined male practitioner. If you don't intend to practice the spells, however, perhaps you'll think it makes as wonderful a gift as I did.
