## The Declaration By Gemma Malley

It's the year 2140 and Anna shouldn't be alive. Nor should any of the children she lives with at Grange Hall. The facility is full of kids like her, kids whose parents chose to recklessly abuse Mother Nature and have children despite a law forbidding them from doing so as long as they took longevity drugs. To pay back her parents' debt to Mother Nature, Anna will have to work for the rest of her life. But then Peter appears at the hall, and he tells a very different story about the world outside of the Grange. Peter begs Anna to escape Grange Hall, and to claim a life for herself outside its bleak walls. But even if they get out, they still have to make their way to London, to Anna's parents, and to an underground movement that's determined to bring back children and rid the world of longevity drugs.

## Editorial Review

Amazon.com Review

**Amazon Significant Seven, October 2007:** I've seen a wave of new young adult novels come across my desk this fall, and among them Gemma Malley's *The Declaration* has captivated me the most. We meet Malley's heroine, Anna, in a society that's unraveling. One hundred or so years earlier, "Longevity," a new drug granting immortality, took the world by storm, only to lead to an untenable swell in population. Anyone who wants to live forever in this brave new world must agree by law not to have children (thus the eponymous declaration) ... or else. Anna is a "Surplus," a fallout of this decree who ekes out a stark existence (in a neo-Dickensian outpost known as Grange Hall) with the hope of becoming a Valuable Asset to the adults immortal. However, with the arrival of a new Surplus, Peter, who's lived on the Outside his whole life, she discovers a path to the life she might have lived. A world in which children struggle against the adults in charge isn't a new concept, but Malley gives it a provocative twist in a debut that echoes Margaret Atwood, Aldous Huxley, and--most recently--Kazuo Ishiguro's *Never Let Me Go* as it explores what happens when you tangle with reproductive power. --*Anne Bartholomew*
