The Fingerprint of God, Commemorative Edition By Dr. Hugh Ross

Can we know whether or not God exists? How did the universe begin? Still today, scientists, theologians, and philosophers often present confusing and opposing viewpoints in attempts to answer these foundational questions. In this apologetics classic, Hugh Ross provides clear evidence for a universe that is designed, initiated, shaped, and sustained exactly as the Bible describes--by God. Readers will learn how astrophysicists reluctantly arrived at a model of cosmic origin and development that unmistakably points to the God of the Bible. This special edition, in honor of RTB's 25th anniversary, commemorates the book's impact on lives and the ministry's growth through the years, by God's gracious hand.
