The Psychology of Aging: Theory, Research, and Interventions By Janet K. Belsky

This pioneering text is the only book to comprehensively explore both research and practice in the psychology of aging and to bring home the actual aging experience through the use of innovative narrative accounts. Because she limits coverage to the older years, Janet Belsky's text is able to offer an in-depth portrait of all aspects of the field--from traditional research, to concrete applications, to the crucial issues we as a society face as our population ages. With chapters constructed to unfold like a novel, this third edition of THE PSYCHOLOGY OF AGING genuinely integrates the field, highlighting the interconnections between concepts, research, and applications. These interconnections offer students a sense of an evolving, coherent discipline. The book is carefully planned to bring home how research applies to real lives. Belsky skillfully uses personal examples to highlight how concepts apply to people, and goes beyond the research to conduct her own interviews with aging professionals and older adults. Scholarly, research-oriented, and intellectually stimulating, THE PSYCHOLOGY OF AGING offers a rare, inside glimpse into the field of aging and the aging experience as it is actually lived.

Editorial Review

Review

"Professor Belsky is an exceptionally gifted scholar and writer. Her illustrations and descriptions of research reveal accuracy and clarity that is almost touching. One of the gems in this book is beginning each chapter with a story from real life that focuses on what will be discussed in the chapter. . . . Throughout each chapter is sprinkled other anecdotes from real life that illustrate what the author is discussing in the more scholarly sections of the chapter. Such examples reinforce what I have thought all along, that textbooks need not be boring to read or sluggish to get through."

"Overall, I am impressed with the text. Specifically, I think that the topics would be of interest to both faculty and students. Moreover, the author does a nice job covering the requisite academic areas and discussing some issues not typically covered in a psychology of aging text. I particularly liked the issues approach to the text."

Users Review

From reader reviews:

Kenneth Sisk:

Reading a guide tends to be new life style on this era globalization. With studying you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Many author can inspire their own reader with their story or their experience. Not only situation that share in the guides. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors on earth always try to improve their talent in writing, they also doing some investigation before they write for their book. One of them is this The Psychology of Aging: Theory, Research, and Interventions.

Christopher Hartwick:

This The Psychology of Aging: Theory, Research, and Interventions is great reserve for you because the content which can be full of information for you who all always deal with world and also have to make decision every minute. This kind of book reveal it info accurately using great plan word or we can state no rambling sentences in it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but tricky core information with lovely delivering sentences. Having The Psychology of Aging: Theory, Research, and Interventions in your hand like keeping the world in your arm, facts in it is not ridiculous 1. We can say that no guide that offer you world with ten or fifteen tiny right but this guide already do that. So , this is certainly good reading book. Hey Mr. and Mrs. hectic do you still doubt which?

Terry Burrows:

As we know that book is important thing to add our information for everything. By a e-book we can know everything we would like. A book is a group of written, printed, illustrated as well as blank sheet. Every year was exactly added. This reserve The Psychology of Aging: Theory, Research, and Interventions was filled regarding science. Spend your extra time to add your knowledge about your research competence. Some people has several feel when they reading a new book. If you know how big good thing about a book, you can experience enjoy to read a publication. In the modern era like now, many ways to get book that you just wanted.

Nancy Byrom:

That e-book can make you to feel relax. This book The Psychology of Aging: Theory, Research, and Interventions was colorful and of course has pictures around. As we know that book The Psychology of Aging: Theory, Research, and Interventions has many kinds or genre. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and believe you are the character on there. Therefore , not at all of book are make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading that.
