Besieged covers the most important sieges from around the world throughout history--from Joshua's assault on Jericho in the fifteenth century B.C. to the Russian attack on the Chechen capital of Grozny at the end of the twentieth. Each entry provides the name and date of the siege, its exact location in terms of today's world, the number of forces engaged, when known, the names of the commanders on each side, and the overall importance of the siege in its historical context. Thoroughly examining the actions of both the attackers and the defenders, the book explores the motivations of both, and strategically surveys the technical and tactical innovations and conditions both inside besieged positions and in the besiegers' ranks. The entries detail the historical setting, the particular circumstances of the event itself, and the long-term results of the siege. These riveting accounts are enhanced by illustrations, over seventy maps, and references for further reading. A glossary and a comprehensive index complete the book.
