Becoming an Angel, The Path to Enlightenment, Autobiography By Kaya

Being human is not enough...

In his autobiography, **KAYA** reveals in detail, for the first time, why he walked away from glory, fortune and success to become a hermit and devote himself to the study of dreams & symbols. A profound, intense, deeply moving book... for all who wish to understand a spiritual path and openings of conscience. **KAYA** recounts some of the premonitory dreams he's been having for over 20 years and explains how to understand them and how to gain access to our spiritual powers. *Becoming an Angel*, a unique book that reveals our spiritual potential... Today I can assert with all my soul and conscience that man's aim in life is to become an angel. I hope that spiritual path and angel testimony will inspire everyone seeking to open up to the multi-dimensions of conscience and to our capacity to travel through space and time. Living in an angelic state of consciousness is absolutely fascinating. At first, however, it is very difficult and overwhelming, as much on the physical, emotional and intellectual levels as on the spiritual level. Today, I am happy to be able to help all those who wish to discover the angelic path more safely and easily than it was for me; my quest was so intense I could have become lost in it. The paths to spiritual evolution are deeply moving and cause great upheaval in our lives because it is impossible to undergo profound transformations without calling into question the values and principles on which we have founded and constructed our lives.
