"Wolitzer has imagined a world for young readers that **celebrates the sacred, transcendent power of reading and writing.**" —*The New York Times Book Review*

There's a place where the lost go to be found.

If life were fair, Jam Gallahue would still be at home in New Jersey with her sweet British boyfriend, Reeve Maxfield. She'd be watching old comedy sketches with him. She'd be kissing him in the library stacks.

She certainly wouldn't be at The Wooden Barn, a therapeutic boarding school in rural Vermont, signed up for an exclusive, supposedly life-changing class called Special Topics in English that focuses—only and entirely—on the works of Sylvia Plath.

But life isn't fair. Reeve has been gone for almost a year and Jam is still mourning.

When a journal-writing assignment leads Jam into a mysterious other world she and her classmates call Belzhar, she discovers a realm where the untainted past is restored, and she can feel Reeve's arms around her once again. But, as the pages of her journal begin to fill up, Jam must to confront hidden truths and ultimately decide what she's willing to sacrifice to reclaim her loss.

From *New York Times* bestselling author Meg Wolitzer comes a breathtaking and surprising story about first love, deep sorrow, and the power of acceptance.

Editorial Review

From School Library Journal

Gr 9 Up—Devastated by the death of her first love, 15-year-old Jam Gallahue is having difficulty moving on with her life. After nearly a year of being mired in grief, her parents send her to a boarding school in rural Vermont that specializes in "emotionally fragile" teens. Once there, she is surprised to have been one of five students selected by the legendary Mrs. Quenell for a class called Special Topics in English. It seems that the entire semester—Mrs. Q's swan song before retirement—will be devoted to the works of Sylvia Plath, and the students are given special red leather journals in which to record their reactions to the assigned readings. Jam is unenthusiastic at first until she realizes that these are no ordinary journals. When she and her classmates, all of whom have endured debilitating losses, begin to writing in their pages, they are transported to their former lives, at least for a while. The teens bond over their experiences in what they call Belzhar, and are able to share their stories and look out for and protect one another. As the semester progresses and the notebooks begin to fill up, they must each confront some inner demons and make some tough choices about their future paths. Wolitzer spins a smart and engrossing tale of trauma, trust, and triumph. She is respectful of the intelligence and sophistication of the teens while acknowledging their vulnerability and lack of life experience. Their voices ring true and the emotional truths are authentic—even for those readers unwilling or unable to embrace the magical realism. Exploring the themes of self-reflection and the recurring notion that "words matter" make this title a perfect choice for book groups and discussions.—Luann Toth, School Library Journal
