Editorial Review

About the Author

George M. Marakas is an associate professor of Information Systems at the School of Business at the University of Kansas. His teaching expertise includes Systems Analysis and Design, Technology-Assisted Decision Making, Electronic Commerce, Management of IS Resources, Behavioral IS Research Methods, and Data Visualization and Decision Support. In addition, George is an active researcher in the area of Systems Analysis Methods, Data Mining and Visualization, Creativity Enhancement, Conceptual Data Modeling, and Computer Self-Efficacy. George received his PhD in Information Systems from Florida International University in Miami and his MBA from Colorado State University. Throughout his academic career, George has distinguished himself both through his research and in the classroom. He has received numerous national teaching awards and his research has appeared in the top journals in his field. In addition to this text, he is also the author of three best-selling textbooks in information systems: Decision Support Systems for the 21st Century, Systems Analysis and Design: An Active Approach, and Data Warehousing, Mining, and Visualization: Core Concepts.

Users Review

From reader reviews:

Jacki Peters:

Within other case, little people like to read book Introduction to Information Systems, 15th Edition. You can choose the best book if you love reading a book. Providing we know about how is important any book Introduction to Information Systems, 15th Edition. You can add know-how and of course you can around the world with a book. Absolutely right, since from book you can understand everything! From your country until finally foreign or abroad you will end up known. About simple issue until wonderful thing it is possible to know that. In this era, we could open a book or perhaps searching by internet gadget. It is called e-book. You can utilize it when you feel uninterested to go to the library. Let's examine.

Kevin Williams:

Book is written, printed, or outlined for everything. You can recognize everything you want by a reserve. Book has a different type. To be sure that book is important factor to bring us around the world. Close to that you can your reading ability was fluently. A reserve Introduction to Information Systems, 15th Edition will make you to possibly be smarter. You can feel much more confidence if you can know about anything. But some of you think which open or reading a new book make you bored. It's not make you fun. Why they can be thought like that? Have you trying to find best book or suitable book with you?

Lisa Westra:

In this 21st hundred years, people become competitive in most way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the actual crowded place and

notice through surrounding. One thing that often many people have underestimated it for a while is reading. Yeah, by reading a publication your ability to survive enhance then having chance to stay than other is high. To suit your needs who want to start reading any book, we give you this specific Introduction to Information Systems, 15th Edition book as beginner and daily reading e-book. Why, because this book is greater than just a book.

Vincent Humphreys:

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some publication, they are complained. Just tiny students that has reading's internal or real their passion. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Introduction to Information Systems, 15th Edition can make you really feel more interested to read.
