Musical Theater: An Appreciation By Alyson McLamore

For Surveys of Musical Theater, Music Appreciation courses and Popular Culture Surveys. This unique historical survey illustrates the interaction of multiple artistic and dramatic considerations with an overview of the development of numerous popular musical theater genres. This introduction provides more than a history of musical theater, it studies the music within the shows to provide an understanding of the contributions of musical theater composers as clearly as the artistry of musical theater lyricists and librettists. The familiarity of the musical helps students understand how music functions in a song and a show, while giving them the vocabulary to discuss their perceptions.

Editorial Review

From the Back Cover

Here it is at last: a history of musical theater from its early origins to the Broadway shows of today, combined with an in-depth study of the musical styles that parallel the changes taking place on stage. *Musical Theater: An Appreciation* teaches the reader how to listen to both the words and the music of the stage musical, understanding how all the components of a show combine to create a unique experience for audiences. Good musical theater moves us—to laughter, to tears, to anger, to pride—and this text helps to demystify many of the subtle tools used to elicit these emotions.

Musical Theater: An Appreciation looks at the contributions of many great American writers: George M. Cohan, Irving Berlin, Cole Porter, the Gershwins, Rodgers and Hammerstein, Lerner and Loewe, Kander and Ebb, Bock and Harnick, Steven Sondheim—as well as the crossfertilizations with European theater, both past and present day. Each chapter enriches the reader's journey with items such as Sidebars that explore issues in greater depth, Behind-the-Scenes anecdotes relating various (mis-) adventures of creative artists, Plot Summaries, and focused examinations of a wide range of theater songs. Musical and theatrical vocabulary terms are introduced throughout the text, allowing readers to speak knowledgeably about both the visual and aural aspects of the stage experience. Armed with these perceptions, readers will be posed for greater enjoyment of musical theater's rich legacy, from *Don Giovanni* to *Rent*, as well as for increased appreciation of drama and music as independent yet complementary arts.

Users Review

From reader reviews:

Iris Wright:

A lot of people always spent all their free time to vacation as well as go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent these people free time just watching TV, or playing video games all day long. If you need to try to find a new activity here is look different you can read any book.
