CSA Cases Workbook for the MRCGP By Ellen Welch, Irina Zacharcenkova, Jennifer Lyall

Winner of the British Medical Association Young Authors Award, Highly Commended in the Primary Health Care category, September 2015!

This is a unique resource for trainee GPs written by three GPs who recently passed the CSA having put together these cases as part of their preparation for the exam.

Designed to be used by GP revision groups, the ring-bound pack provides 64 cases structured around the RCGP curriculum statement areas. The book is designed to allow each member of the revision group to act as 'doctor', 'patient' or 'observer' and to take out just the pages they need ahead of the next revision session – this makes the practice consultations as exam-like as possible.

Each case features:

- information for the doctor – this page provides the doctor with a brief summary of their patient
- information for the patient – this page provides all the background information (including ICE, information divulged freely and information only divulged if specifically asked about) to allow the person in your group to 'act' as the patient; on the back of this page are any results and examination findings that you can provide to the doctor if they ask for it appropriately
- marking scheme for the observer – this page provides the observer in your group with a simple checklist of positive and negative descriptors in each of the three domains (data gathering, clinical management and interpersonal)

To help further with revision, each curriculum area is split up into:

- possible cases – lists the cases most likely to come up in the CSA (including emergency and 'special' cases, where there may be an ethical dilemma, an angry patient or scenario which focuses more on consultation skills than clinical content)
- revision notes – these provide the key NICE and SIGN guidelines, along with other helpful references and websites, that the whole group can read ahead of a revision session on that curriculum area

- material for the patient – a list of resources that you could usefully guide the patient towards in the consultation
- practice explanations – topics, tests and procedures that you should be able to describe to the patient in a couple of minutes
- practice examinations – procedures you should be able to undertake confidently

Your revision group needs just a single copy of *CSA Cases Workbook* rather than multiple copies of any other book, and no photocopying needed either!

Editorial Review

Review

"We have found this revision book extremely useful. It is part of the MRCGP revision series published by Scion. However, it is quite different to other revision guides out there, as it has more cases and is more clearly laid out in topic sections. The idea of the book is to form a revision group, so one book is bought between several GP registrars." Innovait "The ring-bound format makes it extremely easy to use for revision sessions, allowing you to remove the instructions for the simulator and the marking sheet to give to whichever kind person is acting as your patient. " Pulse

Users Review

From reader reviews:

James Boyd:

Book is usually written, printed, or illustrated for everything. You can learn everything you want by a book. Book has a different type. To be sure that book is important issue to bring us around the world. Close to that you can your reading skill was fluently. A guide CSA Cases Workbook for the MRCGP will make you to be smarter. You can feel a lot more confidence if you can know about almost everything. But some of you think which open or reading a new book make you bored. It's not make you fun. Why they can be thought like that? Have you in search of best book or acceptable book with you?

Sherry Ellis:

What do you in relation to book? It is not important with you? Or just adding material when you require something to explain what you problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is make you feel bored faster. And you have time? What did you do? Everyone has many questions above. They should answer that question since just their can do which. It said that about guide. Book is familiar in each person. Yes, it is correct. Because start from on kindergarten until university need this kind of CSA Cases Workbook for the MRCGP to read.

Randy Caldera:

As people who live in often the modest era should be up-date about what going on or data even knowledge to make them keep up with the era that is certainly always change and make progress. Some of you maybe will update themselves by studying books. It is a good choice for you personally but the problems coming to an individual is you don't know which one you should start with. This CSA Cases Workbook for the MRCGP is our recommendation to make you keep up with the world. Why, as this book serves what you want and wish in this era.

Jesus Allgood:

Information is provisions for folks to get better life, information today can get by anyone at everywhere. The information can be a knowledge or any news even an issue. What people must be consider whenever those information which is in the former life are hard to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you find the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen within you if you take CSA Cases Workbook for the MRCGP as your daily resource information.
