The Greek grammar, newly revised and reset for the second edition, which is also available in paperback, can be used as an instructive handbook, as an intermediate level textbook and as a basic reference work to New Testament Greek. The major topics of Greek grammar are treated in a useful pedagogical sequence. Among the innovative treatments are those on tense and aspect, Mood and Attitude, conditional clauses, word order and clause structure, and discourse analysis. The grammar takes account both of the traditional categories of Greek grammar and of recent discussions on structural linguistics.
