Lectures on curves on an algebraic surface (Annals of mathematics studies)

By David Mumford

Lectures on curves on an algebraic surface (Annals of mathematics studies)
By David Mumford

These lectures, delivered by Professor Mumford at Harvard in 1963-1964, are devoted to a study of properties of families of algebraic curves, on a non-singular projective algebraic curve defined over an algebraically closed field of arbitrary characteristic. The methods and techniques of Grothendieck, which have so changed the character of algebraic geometry in recent years, are used systematically throughout. Thus the classical material is presented from a new viewpoint.

Editorial Review

Users Review

From reader reviews:

Patricia Clay:

What do you regarding book? It is not important with you? Or just adding material when you really need something to explain what your own problem? How about your time? Or are you busy particular person? If you don't have spare time to do others business, it is make one feel bored faster. And you have spare time? What did you do? Every individual has many questions above. They need to answer that question simply because just their can do in which. It said that about guide. Book is familiar in each person. Yes, it is correct. Because start from on kindergarten until university need this Lectures on curves on an algebraic surface (Annals of mathematics studies) to read.

Julia Gilmore:

Information is provisions for anyone to get better life, information currently can get by anyone from everywhere. The information can be a information or any news even a huge concern. What people must be consider while those information which is inside former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one typically the resource are convinced. If you obtain the unstable resource then you get it as your main information you will have huge disadvantage for you. All those possibilities will not happen within you if you take Lectures on curves on an algebraic surface (Annals of mathematics studies) as your daily resource information.

Thomas Hayden:

Often the book Lectures on curves on an algebraic surface (Annals of mathematics studies) will bring you to definitely the new experience of reading any book. The author style to spell out the idea is very unique. In case you try to find new book to learn, this book very appropriate to you. The book Lectures on curves on an algebraic surface (Annals of mathematics studies) is much recommended to you you just read. You can also get the e-book from your official web site, so you can more readily to read the book.

Erin Marshall:

The e-book with title Lectures on curves on an algebraic surface (Annals of mathematics studies) includes a lot of information that you can study it. You can get a lot of advantage after read this book. This kind of book exist new know-how the information that exist in this reserve represented the condition of the world at this point. That is important to yo7u to learn how the improvement of the world. That book will bring you throughout new era of the internationalization. You can read the e-book on your own smart phone, so you

can read the item anywhere you want.
