Editorial Review

Amazon.com Review

Day trading such stocks as Amazon.com, eBay, and Yahoo! sounds like a game for the gun slinger: jump into the fray and pull the trigger. Is that really the case? No, according to author Christopher Farrell, who earns his money just as Wall Street does--by making very small, short-term, high-percentage trades. Farrell, who works from home, has traded over 15,000,000 shares of stock via the Internet, producing a 65 percent annual return for his investment fund in its first year. Using detailed, user-friendly examples, Farrell shows how to place orders online and then sell minutes later for small profits that can potentially add up to thousands of dollars a day--*if* you pick the right stocks. He explains how the New York Stock Exchange allows traders to buy on the bid and sell at the offer, just like the professionals. Farrell also includes loads of tips, such as how to choose an online broker, how much to pay for commissions, and how to cope with a technology that's still in its infancy. If you've been thinking about joining the estimated 5 million online traders, then this book is for you. --*Thom Hartle*

Review

Of the many day-trading books that have made it on the Business Week list in the past year, Farrell's is perhaps the most readable. Unlike the other tomes written by veteran traders, his book really starts from the beginning, explaining how stocks are traded. Then he lays out some basic common sense -day traders should choose their moments carefully, getting in and out of stocks quickly, aiming to "hit singles, not home runs," he writes. He clearly explains the pros and cons of using regular online discount brokerage accounts and advises readers to expect occasional glitches and late order fills as part of the costs of doing business...Ultimately, DAY TRADE ONLINE is most successful at giving the reader a realistic picture of what the life of an online day trader is like.

From the Inside Flap

the explosive growth and low cost of online trading has created a new class of investor who can now make a living buying and selling stocks over the Internet in a way that was once reserved for Wall Street's most powerful brokerage firms and investment banks. While technology has made entering the "major leagues" easy, staying in is not. Before taking to the fast-paced, high-risk playing field, it's absolutely essential that you have a firm grasp of the rules and a solid game plan. Day Trade Online is the play book novice competitors need to become strong contenders. Written by seasoned practitioner Christopher Farrell, it is a one-stop, step-by-step overview of how to make a successful living, whether full- or part-time, trading via the Internet. Day trading can be quite lucrative, but only if you know what you are doing. As Farrell points out: "Trading for a living is hard. Trading for a living over the Internet is even harder. There are many challenges and obstacles that confront you. Venturing into this jungle unprepared is a recipe for disaster." This straightforward guide provides the head start and heads up necessary to thrive as an Internet day trader, covering everything from the dangers and pitfalls of trading online to an in-depth analysis of which trading techniques work and which don't. Day Trade Online presents inside information on the strategies of top trading firms, including the most secretive, misunderstood, and profitable function on Wall Street: exploiting the bid-ask spread. Along with complete details on this rarely revealed methodology, you'll learn about:

- * The tools needed to get started in online trading
- * Trading on the NYSE and NASDAQ
- * Which stocks to trade-and which to avoid
- * Beating the specialists and the market makers at their own game
- * The dangers and pitfalls of online brokers

Most importantly, you will learn to look at ten different stocks and pinpoint which one to trade, when, at

what price, and why. With the right know-how, you will then be able to apply this knowledge to every single stock that you screen. Written for the day trader, by a day trader, this is indispensable reading for anyone looking to join an increasingly popular-and profitable-arena.

Users Review

From reader reviews:

Dora Campfield:

Reading a reserve tends to be new life style within this era globalization. With reading you can get a lot of information which will give you benefit in your life. Together with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. Lots of author can inspire their own reader with their story or even their experience. Not only the storyline that share in the books. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors in this world always try to improve their skill in writing, they also doing some research before they write to their book. One of them is this Day Trade Online.

James Reed:

Playing with family in a park, coming to see the sea world or hanging out with pals is thing that usually you will have done when you have spare time, subsequently why you don't try thing that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Day Trade Online, it is possible to enjoy both. It is excellent combination right, you still need to miss it? What kind of hang type is it? Oh can happen its mind hangout fellas. What? Still don't have it, oh come on its known as reading friends.

Patsy Cassella:

This Day Trade Online is great e-book for you because the content that is full of information for you who also always deal with world and get to make decision every minute. This particular book reveal it facts accurately using great organize word or we can point out no rambling sentences inside. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but challenging core information with wonderful delivering sentences. Having Day Trade Online in your hand like finding the world in your arm, information in it is not ridiculous just one. We can say that no guide that offer you world throughout ten or fifteen tiny right but this reserve already do that. So , this is good reading book. Hey Mr. and Mrs. stressful do you still doubt that will?

Carlton Little:

Beside this Day Trade Online in your phone, it may give you a way to get nearer to the new knowledge or information. The information and the knowledge you may got here is fresh through the oven so don't become worry if you feel like an aged people live in narrow commune. It is good thing to have Day Trade Online because this book offers for your requirements readable information. Do you occasionally have book but you

would not get what it's about. Oh come on, that wil happen if you have this within your hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. So do you still want to miss the item? Find this book and also read it from at this point!
