Editorial Review

Review

"Creative, innovative, and flexible alternative to traditional development economics books . . . interesting and informative."

(R. M. Ramazani *CHOICE* 2015-09-01)

From the Inside Flap

"*Essentials of Development Economics* emphasizes the substantive over the technical, presenting a broad overview of key topics in language that is accessible to students who have a limited background in economics and mathematics. I have been looking for a book like this for years."

—Aashish Mehta, Associate Professor of Global and International Studies, University of California, Santa Barbara

"The strength of this book is that it takes old, recent, and new topics and combines them into a very concise reader that is informative and interesting. Other books are too big, too old, or too dry. This book is none of these. It's extremely student-friendly."

—Bruce Wydick, Professor of Economics, University of San Francisco, and author of *Games in Economic Development*

"A creative and flexible alternative to traditional textbooks... I plan to use this book in my own course."

—Edward Miguel, Oxfam Professor in Environmental and Resource Economics, University of California, Berkeley, and author of *Africa's Turn?*

Information is provisions for folks to get better life, information currently can get by anyone at everywhere. The information can be a information or any news even restricted. What people must be consider when those information which is inside former life are challenging be find than now's taking seriously which one works to believe or which one the resource are convinced. If you obtain the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen in you if you take Essentials of Development Economics as your daily resource information.

Tara Reynolds:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's soul or real their leisure activity. They just do what the teacher want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading is not important, boring along with can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Essentials of Development Economics can make you experience more interested to read.
