

Lecture Notes: Ophthalmology

By Bruce James

Lecture Notes: Ophthalmology By Bruce James

Beautifully illustrated throughout, *Ophthalmology Lecture Notes* concentrates on the most common eye problems that health practitioners are expected to diagnose and manage.

The book begins with a brief introduction to ocular anatomy and eye examination, and then focuses on core conditions in ophthalmology. The highly structured text includes self assessment material at the end of each chapter, as well as a series of clinical cases at the end of the book – all designed to facilitate easy access to information, making the book an ideal resource for both study and revision, while the brand new companion website at www.wiley.com/go/james/ophthalmology features all of the book's illustrations and images.

Whether you need to develop your knowledge for clinical practice, or refresh that knowledge in the run up to examinations, *Ophthalmology Lecture Notes* will help foster a systematic approach to the clinical situation for all medical students and hospital doctors.

Editorial Review

Review

"The *Lecture Notes* series has always been a useful source for revision and this ophthalmology edition is not an exception. With an excellent balance of text, diagrams and colour photographs this book gives the reader an overview of the most important features of ophthalmology...I would definitely recommend it." *Eye News*

"A concise well paid out text with good photographs and explanatory diagrams, makes this tricky subject just a little more bearable. At this reasonable price, I wish that this book had been around last year when I bought a lesser quality text for almost double the price and hardly ever opened it. Only the short sighted would give this book a wide berth. Really worth a look." *Surgo*

Users Review

From reader reviews:

Dan Morris:

Reading a e-book can be one of a lot of exercise that everyone in the world loves. Do you like reading book so. There are a lot of reasons why people enjoyed. First reading a book will give you a lot of new data. When you read a guide you will get new information since book is one of several ways to share the information or perhaps their idea. Second, studying a book will make an individual more imaginative. When you reading through a book especially fictional works book the author will bring that you imagine the story how the figures do it anything. Third, you could share your knowledge to other folks. When you read this Lecture Notes: Ophthalmology, you may tells your family, friends in addition to soon about yours book. Your

knowledge can inspire different ones, make them reading a e-book.

Joel Kiser:

Reading can called head hangout, why? Because while you are reading a book specifically book entitled Lecture Notes: Ophthalmology your brain will drift away trough every dimension, wandering in each and every aspect that maybe unfamiliar for but surely can be your mind friends. Imaging each and every word written in a book then become one form conclusion and explanation that maybe you never get prior to. The Lecture Notes: Ophthalmology giving you another experience more than blown away the mind but also giving you useful data for your better life in this era. So now let us explain to you the relaxing pattern is your body and mind are going to be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary spending spare time activity?

Robert Hensley:

This Lecture Notes: Ophthalmology is great book for you because the content that is full of information for you who all always deal with world and also have to make decision every minute. This book reveal it facts accurately using great manage word or we can state no rambling sentences within it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with splendid delivering sentences. Having Lecture Notes: Ophthalmology in your hand like getting the world in your arm, data in it is not ridiculous one. We can say that no guide that offer you world within ten or fifteen tiny right but this publication already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. occupied do you still doubt in which?

Willie Dominguez:

You could spend your free time to study this book this guide. This Lecture Notes: Ophthalmology is simple to bring you can read it in the park your car, in the beach, train and soon. If you did not possess much space to bring often the printed book, you can buy often the e-book. It is make you easier to read it. You can save the particular book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.
