### New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) From Springer

This state-of-the-art survey presents the outcome of the eSTREAM Project, which was launched in 2004 as part of ECRYPT, the European Network of Excellence in Cryptology (EU Framework VI). The goal of eSTREAM was to promote the design of new stream ciphers with a particular emphasis on algorithms that would be either very fast in software or very resource-efficient in hardware. Algorithm designers were invited to submit new stream cipher proposals to eSTREAM, and 34 candidates were proposed from around the world. Over the following years the submissions were assessed with regard to both security and practicality by the cryptographic community, and the results were presented at major conferences and specialized workshops dedicated to the state of the art of stream ciphers. This volume describes the most successful of the submitted designs and, over 16 chapters, provides full specifications of the ciphers that reached the final phase of the eSTREAM project. The book is rounded off by two implementation surveys covering both the software- and the hardware-oriented finalists.

### **Editorial Review**

From the Back Cover

This state-of-the-art survey presents the outcome of the eSTREAM Project, which was launched in 2004 as part of ECRYPT, the European Network of Excellence in Cryptology (EU Framework VI).

The goal of eSTREAM was to promote the design of new stream ciphers with a particular emphasis on algorithms that would be either very fast in software or very resource-efficient in hardware. Algorithm designers were invited to submit new stream cipher proposals to eSTREAM, and 34 candidates were proposed from around the world. Over the following years the submissions were assessed with regard to both security and practicality by the cryptographic community, and the results were presented at major conferences and specialized workshops dedicated to the state of the art of stream ciphers.

This volume describes the most successful of the submitted designs and, over 16 chapters, provides full specifications of the ciphers that reached the final phase of the eSTREAM project. The book is rounded off by two implementation surveys covering both the software- and the hardware-oriented finalists.

### **Users Review**

**From reader reviews:**

**Carl Moss:**

What do you concerning book? It is not important together with you? Or just adding material when you want something to explain what the ones you have problem? How about your free time? Or are you busy man? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have extra time? What did you do? All people has many questions above. They have to answer that question because just their can do which. It said that about e-book. Book is familiar in each person. Yes, it is suitable. Because start from on kindergarten until university need this kind of New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) to read.

**Lauren Veach:**

Here thing why this New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) are different and reliable to be yours. First of all looking at a book is good however it depends in the content than it which is the content is as yummy as food or not. New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) giving you information deeper since different ways, you can find any guide out there but there is no book that similar with New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science). It gives you thrill studying journey, its open up your own eyes about the thing this happened in the world which is maybe can be happened around you. You can actually bring everywhere like in playground, café, or even in your way home by train. In case you are having difficulties in bringing the printed book maybe the form of New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) in e-book can be your choice.

**Albert Fragoso:**

This New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) tend to be reliable for you who want to be described as a successful person, why. The explanation of this New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) can be on the list of great books you must have will be giving you more than just simple reading through food but feed you with information that possibly will shock your before knowledge. This book is usually handy, you can bring it everywhere you go and whenever your conditions in e-book and printed people. Beside that this New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) forcing you to have an enormous of experience for example rich vocabulary, giving you trial of critical thinking that we all know it useful in your day activity. So , let's have it and enjoy reading.

**Annmarie Windham:**

Your reading sixth sense will not betray you actually, why because this New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) publication written by well-known writer who knows well how to make book that could be understand by anyone who else read the book. Written throughout good manner for you, still dripping wet every ideas and composing skill only for eliminate your current hunger then you still hesitation New Stream Cipher Designs: The eSTREAM Finalists (Lecture Notes in Computer Science) as good book but not only by the cover but also with the content. This is one reserve that can break don't assess book by its include, so do you still needing yet another sixth sense to pick this specific!? Oh come on your examining sixth sense already said so why you have to listening to yet another sixth sense.
